Meetings: RareSkinCH_D and beyond

The Swiss National Network of **RareSkinCH** was founded in 2024 under the initiative of **Kosek** (National Coordination for Rare Diseases) in order to support the care of patients with rare skin diseases and to foster research and international collaborations in the field. By merging with the previous “**Genodermatoses-Meetings**”, usually held with colleagues from Germany, we launched the **RareSkinCH_D and beyond – Meetings** in 2025. These meetings provide a platform for the discussion of patients with rare skin diseases but also for exchanging experience and strengthening collaborations between dermatologists, geneticist and pediatricians.

We happily invite anyone interested the field to these meetings! As the meeting thrives on active dialogue, **participants are encouraged to present:**

- an interesting, complex, unsolved, impressive, frustrating, interesting or surprising case
- any learning points or interesting observations
- new insights or findings in the field

The meetings take place 2x/year **on-site in Basel at Hotel Victoria, Centralbahnpl.3/4**, right next to the main train station.

The **SGDV** administrative office kindly provides administrative support, thus **please respond to the outlook invitations** and additionally confirm **your attendance and case presentation by email to lisa.weibel@kispi.uzh.ch**

Meetings dates 2026: 16. April 2026
24. September 2026
